Professional Summary

Detail-oriented and analytical Business Administration student with a strong foundation in data analysis, statistical modeling, and visualization techniques. Proficient in Python, SQL, Power BI, and Advanced Excel. Adept at extracting actionable insights from complex datasets to support data-driven decision-making. Seeking an entry-level Data Analyst role to leverage analytical skills and contribute to business growth.

Core Technical & Analytical Skills

- **Programming & Querying:** Python (Pandas, NumPy, Matplotlib), SQL
- **Data Visualization & BI:** Power BI, Interactive Dashboards, Data Reporting
- **Analytics & Spreadsheets:** Advanced Excel (Pivot Tables, VLOOKUP/XLOOKUP, Data Modeling)
- **Core Competencies:** Data Cleaning, Exploratory Data Analysis (EDA), Statistical Analysis, Problem Solving

Academic Data Analytics Projects

Exploratory Data Analysis (EDA) using Python & SQL

- Cleaned, transformed, and analyzed structured datasets to identify trends, outliers, and key operational insights.
- Formulated optimized SQL queries and Python scripts to aggregate raw data into concise executive summary reports.
- Performed feature engineing and statistical checks to ensure high data integrity for accurate reporting.

Business Intelligence Dashboard using Power BI & Excel

- Designed interactive BI dashboards to visually track and evaluate key performance indicators (KPIs) and monthly sales metrics.
- Leveraged Advanced Excel functions and Power BI DAX expressions to streamline multi-source data processing pipelines.
- Automated data refresh models, significantly reducing manual reporting overhead.

Education

Bachelor of Business Administration (BBA)
Pragati Mahavidyalaya, Hyderabad
Expected Graduation: 2027

Certifications & Professional Focus

- Data Analysis with Python / SQL Certification *(In Progress)*
- Data Visualization & Business Analytics Focus
